**3RD INTERNATIONAL CONFERENCE ON
NEW THERAPIES FOR PARKINSON AND
ALZHEIMER DISEASES**

SCIENTIFIC BOARD AND FACULTY

Giovanni Abbruzzese - Genoa
Angelo Antonini - Padua
Paolo Barone - Salerno
Alfredo Berardelli - Roma
Nicoletta Berardi - Pisa
Fabio Blandini - Pavia
Carlo Caltagirone - Rome
Roberto Ceravolo - Pisa
Giovanni U. Corsini - Pisa
Mirco Cosottini - Pisa
Bruno Dubois - Paris
Murat Emre - Istanbul
Ruggero Fariello - Lugano
Francesco Fornai - Pisa
Amos Korczyn - Tel Aviv
Leonardo Lopiano - Torino
Marco Mainardi - Pisa
Wassilios Meissner - Bordeaux
José Luis Molinuevo - Barcelona
Massimo Musicco - Roma
Alessandro Padovani - Brescia
Pasquale Palumbo - Prato
Lucilla Parnetti - Perugia
Nicola Pavese - London
Werner Poewe - Innsbruck
Alberto Priori - Milan
Leandro Provinciali - Ancona
José Martin Rabey - Tel Aviv
Heinz Reichmann - Dresden
Elio Scarpini - Milan
Anthony Schapira - London
Philip Scheltens - Amsterdam
Fabrizio Stocchi - Roma
Eduardo Tolosa - Barcelona

CONFERENCE ORGANIZERS

Ubaldo Bonuccelli - Pisa
Sandro Sorbi - Florence

The 3rd International Conference on New Therapies for Dementia and Parkinsonian Syndromes will take place in Pisa on September 18 and 19, 2015. The conference will bring together European experts of neurodegenerative diseases coming from the academic world, hospital centres and pharmaceutical industry. The meeting will focus on the new possibilities of preclinical and early diagnosis, and on the more innovative pharmacological and non-pharmacological therapies. The results of clinical trials will be evaluated and discussed, as well as ongoing studies and the expected outcomes, drugs' pipeline, non-pharmacological therapies, perspectives on biomarkers and on future diagnostic-therapeutic scenario and unmet needs of patients with dementia and parkinsonian syndromes.

Sandro Sorbi - Ubaldo Bonuccelli
Congress Presidents

LOCAL ORGANIZING COMMITTEE

Filippo Baldacci - Pisa
Laura Bracco - Florence
Daniela Frosini - Pisa
Filippo Giorgi - Pisa
Lorenzo Kiferle - Pisa
Benedetta Nacmias - Florence
Gloria Tognoni - Pisa

Friday September 18

10.00 -10.30 Welcome address

Mechanisms of disease

Chairmen TBD

10.30

PD: Animal models - Fabio Blandini

11.00

AD: Animal models - Marco Mainardi

11.30

PD/AD: Autophagy pathways in Neurodegeneration - Francesco Fornai

12.00

Break

Early diagnosis

Chairmen TBD

12.30

PD: Prodromal-clinics and biomarkers
Paolo Barone

13.00

AD: Prodromal-clinics and biomarkers
José Luis Molinuevo

13.30

Lunch

Imaging and early diagnosis

Chairmen TBD

14.30

SPECT-PET: Present and Future in PD-AD
spectrum - Roberto Ceravolo

15.00

PET: Present and Future in PD - Nicola Pavese

15.30

MRI: Present and Future in PD-AD - Mirco Cosottini

Biological markers and early diagnosis

Chairmen TBD

16.00

AD: The clinical validation - Lucilla Parnetti

16.30

PD: Prodromic biomarkers of genetic Parkinson disease
Eduardo Tolosa

17.00

Break

New therapies

Chairmen TBD

17.15

New developments in dopaminergic drug
delivery - Werner Poewe

17.45

AD: The new disease modifying drugs - Elio Scarpini

18.15

PD: From the bench to the patients: the new entry Safinamide
Introduction: Ruggero Fariello
Clinical trials and clinical experiences - Heinz Reichmann

Saturday September 19

New therapies

Chairmen TBD

09.00

PD: Glucocerebrosidase- toward a new
therapeutic avenue? - Anthony Schapira

09.30

AD: The nutritional approach- Souvenaid
studies - Philip Scheltens

10.00

PD: Targeting alpha-synuclein
Wassilios Meissner

10.30

AD: New drugs for dementia - Murat Emre

11.00

Break

11.15

The Maestro Lecture

Introduction: Sandro Sorbi - Ubaldo Bonuccelli

The new criteria for AD: a revolution for the clinical practice?
Bruno Dubois

Non pharmacological therapies

Chairmen TBD

12.00

AD: Physical plus cognitive training
Nicoletta Berardi

12.30

PD: rTMS plus cognitive training
José Martin Rabey

13.00

AD: tDCS in motor and cognitive disorders
Alberto Priori

Closing Lecture

13.30

MCI-PD - Amos Korczyn
